(*3) These are quantitative targets stated in Medium-term Management Plan (announcement in February 2015)

(3) Medium-to Long-Term Management Strategy

Based on the Medium-term Management Plan established and announced in February 2015, the Group will implement business strategies based on the basic scenarios comprising “cultivating strategic business areas even further” and “challenging to create new profit opportunities” and promote four foundation strategies as new efforts of reform looking ahead to changes in the operating environment while upholding the basic stance of “Customers’ joy and happiness are Resona’s.”.

By setting the Group’s strengths of regional and retail businesses as its core businesses, the Group will strive to further advance the differentiation strategies with “solutions” leveraged by trust and real estate functions as one of the pillar. In addition, the Group will work toward the realization of the Omni-channel concept that reforms customer contact based on marketing, and aim to further evolve the regional retail strategy through the enhancement of the Group’s three open platforms including strategic investment, alliance and others.

Through these efforts, the Group will aim to create new value for the customers by providing “stand-out” retail financial services. In addition, the Group will aim to become “No. 1 Retail Bank” as “Financial Service Group” which is the most trusted by customers in the region and keeps moving toward the future together with customers, while continuing to evolve and innovate the business with closely supporting small and medium sized entities and individual customers.

(4) Key Issues

The Group recognizes the following items are key issues to be addressed to aim for a “No.1 Retail Bank.”

I. Business strategy**1. Cultivating strategic business areas even further**

In order to ensure “sustainable growth driven by income from main businesses,” the Group will make efforts in “cultivating strategic business areas even further” through sophistication in the differentiation strategies focusing on the regional and retail banking businesses.

The Group will implement “growth, turnaround, succession solution” and “total life solution” within the strategic business domain. In addition, as a developed form of “retail x trust,” the Group will newly establish “Resona seamless style,” which all group banks have trust function as a standard feature and enhance the Group’s ability to provide trust solutions, in order to provide a high quality trust services to the customers.

The Group will promote optimization of the Group’s operating system through coordination and concentration of various functions, and strengthen regional sales capabilities, with a focus on the Tokyo metropolitan area and Kansai area, in order to accurately meet customer needs that are becoming diversified, sophisticated and complicated.

Furthermore, the Group will evolve the “cross-selling,” which addresses customers’ diverse needs through a wide variety of solutions, to “group-wide cross-selling.”

a. “Growth, turnaround, succession solution”

In order to overcome the situation that domestic profit from loans and deposits tends to decline due to the drop in lending rates and to reinforce the corporate business, the Group will establish a brand as “Resona, No.1 in SME business” by enhancing the “growth, turnaround, succession solution” for SMEs through innovating the sales styles (relations, solutions, speed) and by providing multifaceted added value to the customers through providing solutions.

b. “Total life solution”

While the business environment changes quickly such as a progress of the aging society with low birthrates and a concentration of population and wealth, and financial needs of individual customers diversify, the Group will establish a brand as “Resona, No.1 in Personal business” by providing “total life solutions”, to the customers, which give comprehensive support to asset formation and life planning from financial aspects according to the customers’ various life events and plans in their life.

2. Challenging to create new profit opportunities

In the “retail” domain that is the Group’s principal business market, customers’ financial behaviors have become diversified, and various changes have been occurred. In this circumstance, customers whom we “cannot meet” at the extension of conventional business models and sales methods have been getting increasing. The Group understands that addressing such changes would lead to new business opportunities.

Looking ahead to the next decade, the Group aims to further enhance the customer base through the pursuit of retail financial services that “stands out” for the higher quality and the creation of new customer value beyond the boundaries of conventional framework of banks. To be specific, the Group will promote “realization of the Omni-channel concept” that reforms customer contact based on marketing, and “enhancement of open platforms” through strengthening strategic investments and other measures.

a. “Realization of the Omni-channel concept”

The Group will make the following efforts toward the “realization of the Omni-channel concept” that offers high quality and customized retail financial services at the optimal place, time and channel, and that meticulously responds to customers’ financial behavior and values, such as sophistication of marketing, “reconstruction of the value chain” through new efforts to “know our customers well”, “acquaint with our customers” and “communicate with our customers,” services innovations including “24-hour/365-day” business, strengthening linkage between face-to-face channels and non-face to face channels by enhancing internet services.

b. “Enhancement of open platforms”

Looking ahead to the next decade, in order to provide unconventional retail financial services to a broad range of domestic customers, the Group will make efforts in further enhancing the three “open platforms” which consist of “retail banking,” “trust, real estate, international business” and “system and clerical work process” through “strategic investment” to strengthen retail functions and “expansion of alliances” including cooperation with other financial institutions, and aim to become “No.1 retail” financial services group.

II. Base strategies

1. Service reforms - Next Stage

The Group has made efforts in the “service reforms” that constantly thinks from a customer’s perspective, and has carried out customer-oriented reforms that are free from financial institutions customs, such as “open until 17:00”, “no waiting time” and “to make in-Group bank transfers 24-hour/365-day” The Group will further reinforce the effort and will move to the “Next State” of “service reforms” toward the realization of further innovative services.

2. Operational reforms - 3rd Stage

Positioning the next “Operational reforms” as “3rd Stage,” that are a collection of reform know-how in the past such as branch clerical work reforms and business process reforms, the Group will move to “further ahead” reforms such as development of new branches to improve customers’ convenience, drastic reform of cost structure, innovations in the back office system and establishment of a one-platform system for clerical work.

3. Next-generation HR management

The Group will achieve a shift change to “aggressive management” implemented by innovating into a “group-based personnel management” for the optimization of human resource allocation beyond the boundaries of business and corporate unit. The Group will establish an advanced education support system and re-establish the whole HR system that is a further development of the “diversity management.”

4. Sophistication in capital management

The Group will continue to strive to maintain and strengthen the financial base that generates stable revenues from sound assets through a lending portfolio that is diversified to small lots, a stable deposit procurement platform, and establishment of robust risk management system. The Group will achieve “sophistication in capital management” through ensuring a high-level balance between risk and return, generating stable profits, accumulating capital, and responding to financial regulations and rules, as a part of these efforts.

4. Basic Stance on Selection of Accounting Standards

The Company applies accounting principles generally accepted in Japan, though, in response to IFRS adoption in the future, the Company makes an effort to conduct impact study and clarifying the issues. Timing of the adoption is not determined yet.

(6) Significant Accounting Policies Applied in Preparing Consolidated Financial Statements

1. Scope of Consolidation

(1) Number of consolidated subsidiaries: 14

Names of principal companies: Resona Bank, Ltd.
Saitama Resona Bank, Ltd.
The Kinki Osaka Bank, Ltd.

Resona Asset Management Co., Ltd. was newly established and included in the scope of consolidation from the fiscal year 2015.

TD Consulting Co., Limited and Resona Preferred Global Securities (Cayman) Limited are excluded from the scope of consolidation from the fiscal year 2015, since some of the shares in TD Consulting Co., Limited were sold, and Resona Preferred Global Securities (Cayman) Limited was liquidated.

(2) Non-consolidated subsidiaries

Name of principal company: Asahi Servicos e Representacoes Ltda.

Non-consolidated subsidiaries are immaterial with respect to assets, ordinary income, net income/loss (based on the owned interest) and retained earnings (based on the owned interest), accumulated other comprehensive income (based on the owned interest), etc. They are excluded from the consolidation as reasonable judgment on the financial conditions and operating results can still be expected even if they were not consolidated.

2. Application of the Equity Method

(1) Number of non-consolidated subsidiaries accounted for by the equity method: None

(2) Number of affiliates accounted for by the equity method: 1 company

Name of the company: Japan Trustee Services Bank, Ltd.

(3) Non-consolidated subsidiaries not accounted for by the equity method

Name of principal company: Asahi Servicos e Representacoes Ltda.

(4) Number of affiliates not accounted for by the equity method: None

Non-consolidated subsidiaries and affiliates, which are not accounted for by the equity method, are not material to the consolidated financial statements with respect to net income/loss (based on the owned interest), retained earnings (based on the owned interest), accumulated other comprehensive income (based on owned interest), etc. and accordingly, the equity method is not applied to them.

3. Balance Sheet Dates of Consolidated Subsidiaries

(1) Balance sheet dates of the consolidated subsidiaries are as follows:

End of December: 2 companies
End of March: 12 companies

(2) All subsidiaries have been consolidated based on their accounts at their respective balance sheet dates.

Appropriate adjustments have been made for significant transactions occurring during the period from the respective balance sheet dates of the above subsidiaries to the consolidated balance sheet date.

4. Accounting Policies

(1) Trading assets/trading liabilities and trading income/trading expenses

Transactions whose purpose are to earn a profit by taking advantage of short-term fluctuations in the market or discrepancies in interest rates, currency exchange rates, share prices or other market indices on different markets ("transactions for trading purposes") are included in "Trading assets" or "Trading liabilities" as appropriate in the consolidated balance sheets on a trade-date basis. Income and expenses on the transactions for such trading purposes are included in "Trading income" and "Trading expenses" in the consolidated statements of income on a trade-date basis.

Securities and monetary claims etc. held for trading purposes are stated at fair value as of the consolidated balance sheet date. Derivatives, including swaps, futures and options, held for trading purposes, are stated at the fair values as if they were closed out value assuming the respective contracts are closed-out at the consolidated balance sheet date.

Trading income and trading expenses include interest received and paid during the fiscal year, net changes in fair value of securities and monetary claims, etc., and changes in the close-out value of derivatives during the fiscal year.

(2) Securities

Held-to-maturity debt securities are stated at amortized cost determined by the moving average method (the amortization/accumulation is calculated by the straight-line method).

Investments in non-consolidated subsidiaries and affiliates which are not accounted for by the equity method are stated at amortized cost determined by the moving-average method.

Available-for-sale equity securities are stated at fair value based on the average quoted market prices in the last month of the fiscal year. Other marketable available-for-sale securities are stated at their respective market value and the cost of these securities sold is determined by the moving average method. Non-marketable available-for-sale securities whose fair value cannot be readily determined are stated at cost determined by the moving-average method.

Net unrealized gains or losses, net of applicable taxes, on available-for-sale securities are included as a component of net assets.

(3) Derivative transactions

Derivative transactions (excluding “transactions for trading purposes”) are stated at fair value.

(4) Depreciation for fixed assets

(i) Tangible fixed assets (except for leased assets)

Depreciation of tangible fixed assets is mainly computed by the straight-line method for buildings and by the declining-balance method for equipment over the estimated useful lives. The estimated useful lives of major tangible fixed assets are as follows:

- Buildings: 2 ~ 50 years
- Equipment: 2 ~ 20 years

(ii) Intangible fixed assets (except for leased assets)

Amortization of intangible fixed assets is computed by the straight-line method. Software for internal use is amortized over the estimated useful lives (mainly 5 years) determined by the Company and its consolidated subsidiaries.

(iii) Leased assets

Finance leases other than those which are deemed to transfer the ownership of the leased assets to the lessee, which are included in tangible fixed assets or intangible fixed assets, are depreciated by a straight-line method over the lease term. Residual value of those leased assets is zero unless any guaranteed amount is prescribed in the lease agreement.

Depreciation of leased assets deemed to transfer ownership to the lessee is computed by the same method used for owned assets.

(5) Deferred charges

Share issuance costs are charged to expense as paid.

(6) Reserve for possible loan losses

The principal consolidated subsidiaries have provided reserve for possible loan losses in accordance with their internal standards for write-offs and reserves as follows:

For claims to insolvent borrowers who are undergoing bankruptcy or special liquidation, etc. (hereinafter, “bankrupt obligors”) or who are in substantially the same deteriorating financial condition, although not yet in formal bankruptcy proceedings (hereinafter “effectively bankrupt obligors”), a reserve is provided at the full amount of claims after deducting any direct write-offs and excluding the amounts deemed collectible from the disposal of collateral and the amounts recoverable from the execution of guarantees.

For claims to borrowers who are not currently in the condition of bankruptcy or insolvency but with a high probability of becoming insolvent and certain identified claims subject to close watch, which exceeds a certain threshold, the Discounted Cash Flows Method (the “DCF Method”) is applied to determine the amount of reserve for individually large balances which exceeds a certain pre-established threshold amount. The DCF method, however, is applied only when future cash flows from collection of principal and interest can be reasonably estimated. Under the DCF Method, a reserve is provided for the difference between the present value of future cash flows discounted by the original interest rate and the carrying value of the claim.

For claims to other borrowers, a reserve is computed by using the loss ratios derived from the historical loss experience for a specified period.

For claims to certain foreign borrowers with country risk exposure, a reserve is provided for the estimated losses determined by considering the political and economic situation of respective countries.

The operating divisions initially assess all claims based on the internal standards for self-assessment of asset quality. The Internal Audit Division, which is independent from the operating divisions, examines their assessments.

For collateralized or guaranteed claims, etc. to bankrupt obligors and effectively bankrupt obligors, uncollectible amount (i.e., the carrying value less the amounts collectible from the disposal of collateral and execution of guarantees) are directly written-off. Such uncollectible amount is determined considering a valuation of the collateral

and guarantees and is ¥184,764 million.

Other consolidated subsidiaries mainly provide a general reserve against claims at the amount deemed necessary based on their historical loan-loss experience and a reserve for specific claims individually determined to be uncollectible such as those to bankrupt obligors.

(7) Reserve for possible losses on investments

Reserve for possible losses on investments is provided for possible losses on investments in securities based on assessment of the issuers' financial condition and other factors.

(8) Reserve for employees' bonuses

The reserve for employees' bonuses is provided for the payment of performance incentive bonuses to be paid to employees at an estimated amount accrued as of the consolidated balance sheet date.

(9) Other reserves

Other reserves are provided to cover future expenses and losses that can be reasonably estimated.

Major components are as follows:

- (i) Reserve for losses on reimbursement of dormant deposits: ¥28,775 million
A reserve for losses on reimbursement of dormant deposits is provided for the estimated future losses resulting from reimbursements of dormant deposits subsequent to the period of derecognition of the related liabilities.
- (ii) Reserve for Resona Club points: ¥4,954 million
A reserve for Resona Club points is provided for the estimated future losses by usage of the points awarded to the Resona Club members.
- (iii) Reserve for losses on burden charge under the credit guarantee system: ¥4,900 million
A reserve for losses on burden charge under the credit guarantee system is provided for the estimated future losses to be charged by the credit guarantee corporation under the burden sharing system for credit losses on loans.

(10) Employees' retirement benefits

Regarding determination of retirement benefit obligations, the benefit formula basis is adopted as the method of attributing expected benefit to the periods until this fiscal year end. Prior service cost and unrecognized actuarial gains and losses are accounted for as follows:

Prior service cost:	charged to expense in the fiscal year it is incurred
Unrecognized actuarial gains and losses:	charged to income/expense from the next fiscal year of the incurrence by the straight-line method over a period defined within the average remaining service years of eligible employees (ten years).

Certain consolidated subsidiaries estimated net defined benefit liability and retirement benefit costs using the simplified method whereby the retirement benefit obligations amount that would be payable if the eligible employees terminate the employment.

(11) Translation of assets and liabilities denominated in foreign currencies into Japanese yen

Assets and liabilities denominated in foreign currencies of consolidated domestic banking subsidiaries, except for the investments in affiliates on which historical foreign exchange rates are used, are translated into Japanese yen, primarily at the exchange rates on the consolidated balance sheet dates.

Assets and liabilities denominated in foreign currencies of other consolidated subsidiaries are translated into Japanese yen at the exchange rates on the respective balance sheet dates.

(12) Hedge accounting

- (i) Hedges of interest rate risk
Consolidated domestic banking subsidiaries apply the deferral hedge accounting to the hedge of interest rate risk associated with their financial assets and liabilities in accordance with the Japanese Institute of Certified Public Accountants ("JICPA") Industry Audit Committee Report No. 24 "Accounting and Auditing Treatments on the Application of Accounting Standards for Financial Instruments in the Banking Industry." In assessment of effectiveness of fair value hedge, the hedged instruments such as loans and deposits and hedging instruments such as interest swaps are specified as a group with similar remaining term. In assessing effectiveness of cash flow hedge, the correlation of the interest sensitivities of the hedged instruments and the hedging instruments are examined.
- (ii) Hedges of foreign currency risk
Certain consolidated domestic banking subsidiaries apply the deferral hedge accounting to hedge of the foreign currency risk associated with their financial assets and liabilities denominated in foreign currencies in

accordance with JICPA Industry Audit Committee Report No. 25 “Accounting and Auditing Treatments for Foreign Currency Transactions in the Banking Industry.”

Assessment of the effectiveness of these hedge transactions is conducted by confirming whether notional amount of hedging currency swaps, foreign exchange swaps, etc. is corresponding to hedged receivables or payables denominated in foreign currencies.

In addition, in application of the deferral hedge accounting or the fair value hedge accounting to hedges of foreign exchange risk of securities denominated in foreign currencies other than bonds, at the inception of each hedge, the hedge effectiveness is assessed by confirming whether the foreign currency payable amount of hedging spot or forward exchange contracts exceed the acquisition costs of the hedged securities denominated in foreign currencies.

(iii) Transaction among consolidated subsidiaries

Because internal interest swaps, currency swaps, and other derivative transactions specified as hedging instruments are strictly processed based on the appropriate market pricing and covered by corresponding external transactions as required by the JICPA Industry Audit Committee Reports No. 24 and No. 25, gains and losses on these internal derivative transactions within consolidated banking subsidiaries or with their trading accounts, are not eliminated, and are recognized as profit or deferred.

The hedging of certain assets and liabilities are accounted for by the deferral hedge accounting, fair value hedge accounting and the special treatment of interest rate swaps.

(13) Cash and cash equivalents in the consolidated statements of cash flows

Cash and cash equivalents in the consolidated statements of cash flows represent cash and due from the Bank of Japan included in “Cash and due from banks” on the consolidated balance sheets.

(14) Consumption taxes

The Company and consolidated domestic subsidiaries account for consumption tax and local consumption tax with the tax-exclusion method.

(15) Consolidated corporate-tax system

The Company and certain consolidated domestic subsidiaries adopt consolidated corporate-tax system with the Company being a parent company under the system.

(7) Changes in Accounting Policies, Changes in Accounting Estimates and Restatement

Change in Accounting Policies

(Application of Accounting Standard for Business Combinations, etc.)

The Group applied ASBJ Statement No. 21 “Revised Accounting Standard for Business Combinations,” ASBJ Statement No. 22 “Revised Accounting Standard for Consolidated Financial Statements,” ASBJ Statement No.7 “Revised Accounting Standard for Business Divestitures” and related guidance, all of those issued on September 13, 2013, from the fiscal year 2015.

Accordingly, the Company has changed to recognize the difference arising from changes in the ownership interest in subsidiaries while it retains its controlling interests in the subsidiaries as capital surplus, and acquisition-related costs are charged to expenses in the periods when the costs are incurred.

In addition, for a business combination occurring on or after April 1, 2015, an adjustment of acquisition cost allocation arising from finalization of the provisional accounting treatments is retrospectively recognized in the consolidated financial statements for the period when the business combination occurs.

Furthermore, presentation of net income in the financial statements was amended and “minority interests” was changed to “non-controlling interests.”

For the application of these accounting standards, the Company adopted the transitional provisions in item (4), paragraph 58-2 of the Accounting Standard for Business Combinations, item (4), paragraph 44-5 of the Accounting Standard for Consolidated Financial Statements, and item (4), paragraph 57-4 of the Accounting Standard for Business Divestitures effective from the beginning of the fiscal year ended March 31, 2015.

There is no effect on the consolidated financial statements for the fiscal year 2015.

3. Loans to borrowers in legal bankruptcy amounted to ¥28,494 million, and past due loans amounted to ¥314,305 million.

Loans to borrowers in legal bankruptcy are loans for which payment of principals or interests has not been received for a substantial period or, for other reasons, there are no prospects for collection of principals or interests, and accordingly, no interest has been accrued (excluding balance already written off and hereinafter referred to as "nonaccrual loans") and also certain specific condition stated in the Implementation Ordinances for the Corporation Tax Act (Cabinet Order No. 97, 1965), Items i through v in Article 96-1-3 or the circumstances stated in Article 96-1-4 exists.

5. Restructured loans amounted to ¥216,510 million.
Restructured loans are those which consolidated subsidiaries have provided special terms and conditions: - including reduction of the interest rates, reschedule of the interest and principal payments, or waiver of claims on the borrowers, all of which are more favorable to the borrowers than the corresponding terms in the original loan agreements. These loans do not include "loans to borrowers in legal bankruptcy", "past due loans" and "loans past due 3 months or more."
6. Loans to borrowers in legal bankruptcy, past due loans, loans past due 3 months or more and restructured loans amounted to ¥563,133 million in the aggregate. The amounts presented in above 3. to 6. are stated at the amounts before net of the reserve for possible loan losses.

Unused balances related to these agreements amounted to ¥8,669,077 million including ¥8,221,779 million of agreements with original terms of one year or less or those that are unconditionally cancellable by the Group at any time without penalty.

The unused balances do not necessarily affect future cash flows of the consolidated subsidiaries because most of those agreements are expected to expire without being exercised. In addition, most agreements contain provisions, which stipulate that the consolidated subsidiaries may decline to extend loans or reduce the prearranged commitment amount when there are adverse changes in the financial conditions of the borrowers or for other reasons.

When extending loans to customers, the Group may request collateral or guarantees such as real estate and securities if deemed necessary.

After originating loans, the Group periodically checks the financial condition of the borrowers based on its internal rules and, if necessary, takes measures to ensure the security of the loans.

For the fiscal year 2015, an impairment loss was amounted to ¥2,782 million.

To assess whether or not a decline in fair values is substantial, the Group considers not only the severity and duration of the decline in value but also the classification of the security issuer which is used in the self-assessment of asset quality as follows:

- (i) For issuers who are classified as bankrupt obligors, effectively bankrupt obligors, and borrowers with a high probability of becoming insolvent:
where the fair value is lower than the amortized cost or acquisition cost.

where the fair value declined by 30% or more compared to the amortized cost or acquisition cost.

Notes:

(*1) Calculation of net assets per share of common stock for the fiscal year 2014

Regarding to Class C No.1 preferred stock and Class F No.1 preferred stock acquired and cancelled on June 25, 2015, the right to receive the distribution of residual assets (total amount is ¥ 160.0 billion) is not decreased by the special preferred dividends made for repayment of public funds. However, in order to represent the actual conditions of the repayment scheme (the repayment of public fund has been implemented by special preferred dividends funded by other capital surplus) based on "Public funds full repayment plan" announced on May 10, 2013, "Net assets attributable to common stock at the end of the fiscal year" was calculated after deducting the Public funds to be repaid for the preferred stocks of ¥128.0 billion from "Total net assets"(specifically, included in "Preferred stock" of "Deductions from total net assets"). To avoid duplicated deduction of Public funds to be repaid impact described above, the special preferred dividends of ¥32.0 billion, which record date was at the end of the fiscal year 2014 and was funded by other capital surplus, was not deducted from "Total net assets."

(*2) The number of shares of common stock at the end of the fiscal year used for the calculation of net assets per share of common stock is after deductions of 1) the number of treasury shares and 2) the number of shares held by ESOP-type Stock Benefit Trust for the Employee Shareholding Association (5,057 thousands shares as of March 31, 2015 and 3,427 thousands shares as of March 31, 2016).
